**OFFICE OF PETITIONS**

In re Application of :  
Bihua Liu :  
Application No. 10/634,526 : ON APPLICATION FOR  
Filed: August 5, 2003 : PATENT TERM ADJUSTMENT  
Atty Docket No. 1365-US :

This is in response to the APPLICATION FOR PATENT TERM ADJUSTMENT filed on January 30, 2009. Applicant requests that the determination of patent term adjustment be corrected from seventeen (17) days to one thousand eighty-eight (1088) days. Applicant requests this correction, in part, on the basis that the Office will take in excess of three years to issue this patent.

The application for patent term adjustment is **GRANTED to the extent indicated.**

The Office has updated the PALM and PAIR screens to reflect that the correct Patent Term Adjustment (PTA) determination at the time of the mailing of the Notice of Allowance is FOUR HUNDRED SIXTY (460) days. A copy of the updated PAIR screen, showing the correct determination, is enclosed,

To the extent that the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, a decision is being **held in abeyance** until after the actual patent date with regards to that request. Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.703(b). (This is true even

where a request for continued examination (RCE) was filed. The computer will not undertake the § 1.703(b) calculation until the actual date of issuance of the patent has been determined.

Applicant is given TWO (2) MONTHS from the issue date of the patent to file a written request for reconsideration of the patent term adjustment for Office failure to issue the patent within 3 years. A copy of this decision should accompany the request. Applicant may seek such consideration without payment of an additional fee. However, as to all other bases for seeking reconsideration of the patent term adjustment indicated in the patent, all requirements of § 1.705(d) must be met. Requests for reconsideration on other bases must be timely filed and must include payment of the required fee.

Rather than file the request for reconsideration of Patent Term Adjustment at the time of the mailing of the notice of allowance, applicant is advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term pursuant to 37 CFR 1.705(d). The USPTO notes that it does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent and accordingly, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent.

To the extent that the instant application for patent term adjustment requests reconsideration of the PTA at the time of the mailing of the Notice of Allowance, the request is **granted to the extent indicated.**

On January 14, 2009, the Office mailed a Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. Applicant was advised that the patent term adjustment to date was seventeen (17) days. The period of adjustment was 468 days of PTO delay and 451 days of applicant delay.

On January 30, 2009, the subject application for patent term adjustment was timely filed.<sup>1</sup>

---

<sup>1</sup> Office records indicate that the issue fee was paid on February 27, 2009.

Applicant requests removal of the period of reduction of 451 Days under 37 CFR 1.704(c)(8) for the filing of an information disclosure statement (IDS) on January 9, 2009, after the filing of a reply to a non-final office action. Applicant asserts that no IDS was filed on January 9, 2009.

A review of Office records confirms that no IDS was filed on January 9, 2009. No paper was filed in this application on January 9, 2009. Accordingly, entry of a period of reduction of 451 days is not warranted, and will be removed.

Applicant asserts that a period of reduction of eight (8) days should be entered for the filing of a supplemental reply on October 24, 2007, eight (8) days after the filing of a reply, on October 16, 2007, to the office action mailed on July 16, 2007.

37 CFR 1.704(c)(8) states that circumstances that constitute a failure of the applicant to engage in reasonable efforts to conclude processing or examination of an application also include the following circumstances, which will result in the following reduction of the period of adjustment set forth in § 1.703 to the extent that the periods are not overlapping: Submission of a supplemental reply or other paper, other than a supplemental reply or other paper expressly requested by the examiner, after a reply has been filed, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the day after the date the initial reply was filed and ending on the date that the supplemental reply or other such paper was filed.

Accordingly, entry of a period of reduction of eight (8) days is warranted.

In view thereof, the correct patent term adjustment at the time of the mailing of the notice of allowance is four hundred sixty (460) days (468 days of office delay reduced by eight (8) days of applicant delay).

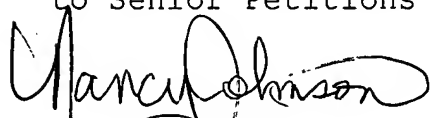

Applicants state that the patent is not subject to a terminal disclaimer.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e). No additional fees are required.

Applicants are reminded that any delays by the Office pursuant to 37 CFR 1.702(a)(4) and 1.702(b) and any applicant delays under 37 CFR 1.704(c)(10) will be calculated at the time of the issuance of the patent and applicants will be notified of the revised patent term adjustment to be indicated on the patent in the Issue Notification letter that is mailed to applicants approximately three weeks prior to issuance.

The Office of Data Management has been advised of this decision. This matter is being referred to the Office of Data Management for issuance of the patent.

Telephone inquiries specific to this decision should be directed to Senior Petitions Attorney Douglas I. Wood at (571) 272-3231.

A handwritten signature in black ink, appearing to read "Nancy Johnson", with a stylized flourish at the end.
